

# COVID SCREENING required

## Contractors and service providers

**All contractors and service providers** attending or working inside our building (including in the units) must be screened for COVID-19 before they enter the building. This screening must be done every day you attend our site.

Please complete the online screening process by **pointing your smart camera at the QR Code to the right**.

Once you completed the Screening form you'll be given the option to email it to us. Email it to:

Email: \_\_\_\_\_

Please do **NOT** enter our building if you have any of the COVID symptoms or if you have answered "YES" to any of the questions in our Screening Form.

## Owners / occupants / visitors

Actively monitoring your symptoms and self-screening is a useful precaution to be taken by all. **Owners, occupants and visitors** can also screen themselves, if they wish, using the same online screening tool. Just make sure you indicate your unit number (or the one being visited) and write "self-screening" (or "visit") under purpose of the visit.
